# U. S. MANPOWER DRAFT NUMBERS ARE DRAWN

## AMERICA'S BIG VICTORY ARMY NOW UNDER WAY

These are the first 100 numbers drawn in the draft lottery today, in the order named:

322, 727, 6708, 1027, 16,169, 8366, 5366, 1097, 7123, 2781, 9283, 6147, 6360, 3748, 904, 12,368, 1523, 7515, 5393, 10,846, 1007, 6340, 3808, 1240, 10,846, 1007, 12,368, 3223, 12,368, 11,101, 2123, 10,762, 3223, 739, 16,653, 8309, 4018, 8772, 7054, 535, 8001, 11,060, 8858, 519, 16,516, 4287, 12,830, 625, 72, 11,338, 832, 10,491, 14,023, 14,043, 064, 8637, 2897, 7834, 1723, 10,656, 4327, 5305, 318, 7234, 1, 12,842, 4182, 9022, 1961, 4886, 10,001, 12,842, 13, 1, 4, 310, 12,210, 12,618, 3531, 14,361, 14,754, 11,464, 13,841, 8055, 6777, 7952, 11,191, 15,760, 14,359, 12,184, 11,232.

WASHINGTON, Sept. 30.—America's victory draft lottery, her third and greatest, got under way at noon today.

Because approximately 17,000 capsules must be drawn from the big glass bowl, holding the fate of the nation's 18-45 human war material, the lottery will go through today, about 11:45, and probably well into tomorrow afternoon before it is completed. Early in the day, big crowds thronged the Senate office building, where the drawing was held. House and Senate military committees, Acting Secretary of War Crowell, Chief of Staff March, Provost Marshal General Crowder and other notables were there at the drawing.

IN THE first draw the drawing occupied 16 1/2 hours. 10,500 capsules being listed. The second lottery was completed in one hour and fifty minutes, only 1200 capsules.

PRESIDENT WILSON'S FIRST NUMBER.

Standing blindfolded in a great crowd which thronged the Senate "caucus room" of the Senate office building, President Wilson today drew the first capsule number, 322, and thereby selected hundreds of men who will go to the front from those registered September 12. The President himself faced a battery of moving picture cameras as he drew the fateful pellet.

Following the drawing of the first number by the President, Vice-President Marshall drew No. 7277.

He was followed by Senator Saulsbury of Delaware, president pro tem of the Senate, who pulled the third capsule from the bowl, containing No. 6708.

Speaker Champ Clark followed Saulsbury and drew No. 1027. The fifth number was 16,169.

Accompanied by Mrs. Wilson, the President checked where he entered the room. He then went with the crowd, receiving his instructions from General Crowder and having talked with Vice-President Marshall before he was called to his task.

The President made no comment regarding the lottery. The number he drew was the lowest of any official and hence odds were not to the colors than the numbers drawn by Daniels and others. General Crowder explained to him.

Next in turn was Secretary of the Navy Daniels, who drew No. 16,169, Acting Secretary of War Crowell followed with No. 8366. Other dignitaries followed in order with the following numbers:

Senator Chamberlain of the military affairs committee, 5366; Senator Warren of Wyoming, ranking Republican member of the committee, 1007.

Representative Dent of Alabama, chairman of the House military committee, No. 7234.

Representative Kahn of California, ranking Republican member of the committee, No. 2781.

General March, chief of staff, No. 9283.

Lieutenant General Young, re-

ferred, No. 10,656.

Provost Marshal General Crowder, No. 438.

Colonel Warren, No. 904.

Colonel Eshy Smith, No. 12,368.

Colonel Colver, No. 16,232.

'NO PARTY ISSUES INVOLVED'  
'SENATE'S VOTE ESSENTIAL'  
TEXT OF PRESIDENT'S SPEECH

(By Associated Press)

The President addressed the Senate on suffrage today, as follows:

Gentlemen of the Senate:

The usual circumstances of a world war in which we stand and are judges in the view not only of our own people and our own consciences, but also the view of all nations and peoples, will not, I think, justify, in your thought as it does in mine, the message I have come to bring you.

I regard the concurrence of the Senate in the constitutional amendment proposing the extension of suffrage to women as vitally essential to the successful prosecution of the war of humanity in which we are engaged. I have come to urge upon you the considerations which have led me to that conclusion.

They have seen their own governments accept this interpretation of democracy—seen old governments like that of Great Britain, which did not profess to be democratic, promise readily and as of course this justice to women, though they had before refused it; the strange revelations of this war having made many things new and plain to governments as well as to peoples.

Are we alone to refuse to learn the lesson? Are we alone to ask and take the utmost that our women can give—service, service of every kind, and sacrifice, and see do not we, who think that gives them to stand by our sides in the guidance of the affairs of their nation and ours?

We have made partners of the women in this war; shall we admit them only to a partnership of service and sacrifice and not all to a full partnership of privilege and right?

This war could not have been fought, either by the other nations engaged or by America, if it had not been for the services of the women—services rendered in every sphere, not merely in the field of effort in which we have been accustomed to see them work, but wherever men have worked and upon the very skirts and edges of the battle itself.

We shall not only be disgruntled, but shall deserve to be disgruntled, we may think, if we associate them with the fullest possible enfranchisement, as it is now certain that the other great free nations will enfranchise them.

As a "commander-in-chief of the army and navy," he declared suffrage to be "vitally essential to the successful prosecution of the great war of humanity."

By granting it the President declared it his duty to "ask you to remove every obstacle that stands in the way of winning the war."

This action is vital, he said, because the effect of that it will have upon the peoples of the world who expect this country to lead the way in all democratic measures.

IN THE HANDBOOK

AMERICAN ARMY IN FRANCE, Sept. 30.—American troops continued to battle with the enemy today in spite of sticky mud and foot-and-mouse attacks.

"Our troops have continued to meet with determined resistance on the part of the enemy, who have been forced hastily to bring up and engage divisions from other parts of the front," the communiqué states.

"Between Arras and the valley of the Aisne we have met and repulsed heavy counter-attacks."

By NEWTON C. PARKE, International News Service Staff.

AMERICANS SWEEP ACROSS, TAKE TOWNS

WITH THE BRITISH ARMY IN FRANCE, Sept. 30.—Just two hours and thirty minutes after the "kick-off" on the right flank of the American army at 4:30 a.m. Saturday morning, with the British on the left, the British advanced 10 miles front opposite Cambrai and St. Quentin had swept across the tunnelled section of the Canal du Nord, capturing the villages of Nauroy and Bellencourt.

The left flank encountered stiffer resistance, but seized the canal, taking the important town of Le Catelet and Gouroy.

There was bitter fighting at close quarters in the latter village.

The capture of Le Catelet and Gouroy resulted in the smashing of the main Hindenburg front line.

The Americans advanced to the intermediate line, where Australian troops "hurled forward" that is, the Australians passed on through the American lines, storming the second Hindenburg line.

PERSHING'S TROOPS

CARRY ALL OBJECTIVES

The Americans attacked over a front of 6000 yards (between three and four miles) and penetrated to the same distance, carrying all their objectives on schedule.

# BRITISH, FRENCH, U. S. SMASH HUN DEFENSE

## ALLIES BREAK ENEMY'S LINES FOR 2 MILES

(Continued From Page 1)

Lille, St. Quentin, Cambrai and Laon are the five great bastions of the German defenses. These five cities have been held by Germany, like the fingers of a hand gripping France.

Germany is about to lose the two middle fingers—Cambrai and St. Quentin—and the others are endangered.

It will probably take weeks and perhaps months of bitter fighting and many battles may be necessary before those other grasping fingers can be pried off, and the kaiser forced to take a new grip further north, but there is no doubt in the mind of military officials and the people that it can be done.

### STEADY ADVANCES ALL ALONG FRONT

There are continuous advances at many parts of the line. Attack is piled upon attack. The significance of the vast battle is the great outstanding fact that for the first time since the Germans in 1914, they are now forced to think hard and fast to retain their grip upon Northern France. Only a week ago to the public such a situation would have seemed liable to result only from many weary months of campaigning—yet today it's an accomplished fact.

PARIS, Sept. 30.—The Champagne offensive, after a night without infantry action, was resumed today at dawn, and the French war office announced today.

Violent German counter-attacks south of St. Quentin were repulsed during the night. There was sharp artillery fighting between the Ailette and the Aisne.

During the night sharp German attacks on the neighborhood of Arras (three miles south of St. Quentin) were repulsed," says the communiqué. The French broke up all attacks against hill 88.

There was fairly sharp artillery fire between the Aisne and the Ailette.

In the Champagne there was no infantry action during the night. The battle began again at daybreak."

### BRITISH TROOPS ENTER SUBURBS OF CAMBRAI

LONDON, Sept. 30.—British troops have entered the northern suburbs of Cambrai, Field Marshal Haig reported today. They have also reached the junction of the Arras-Cambrai and Bapaume-Cambrai roads on the western edge of the city.

Americans, Australians and English, despite heavy resistance all day today, gained ground between Cambrai and St. Quentin.

"There was heavy fighting yesterday afternoon at the left of the battle front," the statement said. "Our advanced troops, which had taken Aubencheul-Au-Bac and had entered Arleux (an important town five and a half miles directly south of Douai), were compelled to withdraw from these hills.

"North and west of Cambrai the enemy was unable to prevent our progress. Advanced detachments reached the junction of the Arras-Cambrai and Bapaume-Cambrai roads and entered the northern suburbs of the town.

"A heavy rain has fallen during the night and it is still stormy."

"At Bony and Villers-Guislain hostile counter-attacks during the latter part of the day pressed us back slightly to the western outskirts of these villages. Elsewhere our gains were maintained."

North of Cambrai, further progress was made during the evening in the direction of Les Rues des Vignes (five miles directly south of Cambrai).

"Yesterday, north of St. Quentin, the Midland division alone captured 400 prisoners and forty guns."

"At Bony and Villers-Guislain hostile counter-attacks during the latter part of the day pressed us back slightly to the western outskirts of these villages. Elsewhere our gains were maintained."

WAR WORKERS

BERKELEY, Sept. 30.—While whistles and sirens shrieked news of new victories, more than 3000 prospective fliers were welcomed to the University of California today by President Benjamin D. Wheeler at an impressive opening ceremony held in the Greek theater. "We Americans are, most of us for most of the time, optimists," was the greeting of President Wheeler to the embryo fliers at the unique opening ceremonies held on the University campus. "We believe with a calm and inexplicable faith that sooner or later the good will prevail. We are optimists, we who are not quakists to base in passive contemplation. What we believe in fight for any fight with all we have and all we are."

More than 3000 students and men in uniform will use the University campus during the coming semester, according to President Wheeler's announcement this morning. Of this number 2000 will compose the new Signal Corps Army Flying Corps, 500 will be included in the naval unit, 1200 in the School of Military Aeronautics and 500 in a school for radio-electricians, in addition to some 2400 women and 500 graduate students, making the biggest body of men and women ever attending the State University.

Commissioner of Public Works Mose pointed out that he had included an appropriation of \$24,000 for the repair of the trestle in his budget, but that it had been cut out and only \$10,000 had been allowed to the street department for Fourteenth street. He said this was not enough to do the work and also called the attention of the Council to the fact that sanitary engineer John W. Bingham, representing the United States Shipping Board, had proposed to dump garbage at the present terminus of the trestle, as this adjoins the new shipyards of the Union Construction Company.

On the motion of Mayor Dayle a request will be sent to Bingham to appear before the Council and advise it what course should be taken in this emergency, and whether the Government will not permit the city to dump garbage at this place and cover it with an immediate after the dumping has taken place.

Baker Will Confer  
With Army Heads

LONDON, Sept. 30.—Secretary of War Baker is here today to participate in an important military conference with American military leaders.

Dr. Le-Apsley to Speak  
On Vital Topics

A series of lectures will be delivered in Hotel Oakland by Dr. Le-Apsley on Sleep, Death, Survival, etc., commencing Tuesday, Oct. 1st, at 8 p. m. Subject of the first lecture, "Sleep and the Unbroken Memory." Admission 50 cents.

SHIPBUILDERS  
TO TAKE HALF  
DAY SATURDAY

Beginning today all of the locals embraced in the jurisdiction of the Pacific Coast Council of Boilermakers and Iron Shipbuilders, now in session here, will work a 44-hour week. This means that the Boilermakers and Iron Shipbuilders employed in Eastbay shipyards will take up to 44 hours on Saturdays, irrespective of the request of the Macy board, expressed by the Macy board, of any action which may be taken by other unions affiliated with the shipbuilding industry.

The order for the 44-hour week was issued this morning by President McEachern of the Pacific Coast Council and is mandatory.

The order closely follows a telegram from the Shipbuilding Labor Adjustment Board to J. H. Powers, secretary of the Boilermakers' Council, in which it is specifically stated that the board expects the men to work eight hours at straight time on Saturdays. The telegram reads as follows:

"Wire received. Shipbuilding Labor Adjustment Board regrets keenly the delay in the issue of the Macy Board decision which, as explained, is due to the president's request, based on the conviction that the existing policy requires better co-ordination of wage adjusting agencies before a further decision should be issued. Substantial progress is being made toward better co-ordination."

In promising employees a continuous working condition the decision to increase wages, which a hearing had been illegal. On the motion of Commissioner F. F. Jackson of the Department of Public Health and Welfare, Council voted to accept the new agreement and adopted a resolution canceling the liquor permit.

A. D. Smith, proprietor of the Keyes Inn, San Francisco, was cited by the Council to appear tomorrow morning to show cause why his liquor license should not be canceled. Action was taken by the recommendation of the chief of police, who reported that Smith had sold liquor to Leon George, a customer, during pro-

Expenditures for carrying on the Pacific Coast Land and Industrial Exposition filed with the City Council today. Up to now the expenses are as follows: Music, \$1500; decoration, \$1000. The matter was referred to City Auditor L. H. Clay.

"In the meantime the board expects all shipyards on the Pacific coast to work eight hours at straight time on Saturdays in strict accordance with your existing agreements. —MACY."

"Chairman Labor Adjustment Board."

The action of McEachern in ordering the 44-hour week is in line with the policy of the men employed in the shipyards at Seattle, who have insisted upon a 44-hour week for some time. Standard ever since the old Mac agreement expired on August 31. Hitherto the men employed in the Eastbay shipbuilding plants have for the most part worked the full eight-hour shift on Saturday. The matter has been brought up recently by the Boilermakers and other unions affected and to date has been followed by a vote to work full time on Saturday.

Just what effect the McEachern order will have on the ship laborers and other unions whose members are engaged in the shipbuilding industry is at this time problematical. Some of the unions are in favor of adopting the MacEachern order. No steps will, however, be taken until the matter has been put to a vote by the unions.

COUNTY MEN'S  
SALARIES MUST  
NOT BE HOCKED

Hoching the latter long ago became unpopular, but from today it will be likewise unpopular for any employee of the county to hock his salary warrant. If he does so, in the face of the resolution adopted today by the Board of Supervisors, he will not be a county employee any more.

Supervisor J. F. Mullins today introduced a resolution requiring all employees to work from 9 o'clock sharp in the morning till 5 in the afternoon with one hour for dinner, and requiring them further to remain away from the pawnbrokers.

"I will absolutely vote to dismiss any employee of the supervisors who pledges his salary warrants," said Mullins.

"You have my vote right now," Chairman Murphy assured.

"After further I would like it better if the resolution with regard to the working hours be made to apply to the supervisors."

Supervisor Mullins said that in one department there are eighteen employees who have already discounted their October warrants to the loan sharks.

## SOCIETY

A betrothal in university circles, which was announced by the bride-elect Saturday in this city and in San Jose, her home city, was that of Miss Ruth Cornell, daughter of Mr. and Mrs. Charles J. Cornell, and Enos Paul Cook, of Oakland, assistant surgeon in the United States Navy. Miss Cornell is a gifted musician and composer, and while a student at the University of California composed the music for the *Parthena* in 1915 and for one of the large pageants given last year in San Jose. She is a graduate of the class of 1916 of the State University.

To make way for the Fourth Liberty Loan drive, which lasts well into the coming month, the Baby Hospital Association has postponed the date of its pageant, "The Road to Victory," from October 17, 18 and 19, to October 31, November 1 and 2. This will allow for more extensive training in the choruses and dance numbers.

Charles Williams, son of Mrs. Edward Lacey Brayton, has passed his examinations for ensign in the officers' camp at Mare Island, and is now on furlough and a guest at the Brayton home. He will go to Pelham bay, where he will be assigned to duty on one of the Merchant Marine ships.

At the home of the bride's father, Henry D. Ames, 11 Howe street, Miss Mary Dwight Ames became the bride Saturday evening of Hardin Hughes, of Camp Fremont, social secretary in the Y. M. C. A. work. The service was read at 8:30 o'clock by Rev. Charles Luther Kloss, pastor of Plymouth Congregational church, one hundred guests attending. Miss Ames wore a bridal gown of pale pink georgette, a sprig of white wisteria, the wedding veil of tulle and orange blossoms and carried a shower bouquet of pink and white roses and Cyclamen. Her attendant, Miss Lulu Bend of Santa Cruz, wore pastel shade of blue and carried pink rosebuds and fern. Little Grace Marlon Peterson, the flower girl, wore a white lingerie frock and carried a basket of rose petals.

Miss Eva Patrec, daughter of Mrs. Louise Patrec, surprised her friends Saturday evening when her wedding to Ensign Theodore E. Swigart, U. S. N., took place at the bride's home, in Grand avenue. The wedding was hurried because of Ensign Swigart's orders to go east tomorrow to complete his studies at Annapolis. The attendants were young couples who were Miss Margaret Lester, who served as bridesmaid for Miss Patrec, and Ensign de Fremery, a close friend of the bridegroom. The bride was married in a smart tailor suit of dark material, one of the new winter modes, with which she wore a chieftain hat.

The bride will remain here while her husband is completing his studies in Annapolis. Ensign Swigart is a son of Mr. and Mrs. F. W. Swigart, of Berkeley, and is a graduate of Stanford University.

**STRENGTH FOR WEAK NERVES**

We do not give much thought to our nervous system when it is working all right but when it goes wrong nature has a way of calling it forcibly to our attention by something that we cannot overlook—pain.

Try to pick a diseased nerve with medicine of some sort and you are confronted with a fact that every doctor knows, that the only way to reach the nerves with medicine is through the blood.

Miss Stella Coffield, whose address is R. F. D. 2, Centerburg, Ohio, says: "I was sick for six months and in bed for ten weeks. I doctor'd faithfully for two months and kept getting worse and finally had a stroke of paralysis which affected my right leg and arm and speech. I could not talk for two weeks and I had no use whatever of my leg and arm. I was very nervous. My people thought I would never be anything but a helpless cripple."

"It was through my father that I commanded taking Dr. Williams' Pink Pills. He was discouraged and when he read about the pills he decided to have me try them. I could soon see a change and gave the remedy a thorough trial. The numbness in my leg disappeared and after a time I could walk. I grew stronger and really think that if it had not been for Dr. Williams' Pink Pills I would still be a helpless cripple."

The treatment in cases like this is one of nutrition of the nerve cells, requiring a non-alcoholic tonic such as Dr. Williams' Pink Pills. Your own druggist sells the pills. Price 50 cents a box; six boxes for \$2.50. Write to the Dr. Williams' Medicine Co., Schenectady, N. Y., for free book on home treatment of nervous disorders.

Your complexion is wonderful since

# Resinol

healed that skin trouble

If you are suffering from some embarrassing skin eruption, what wouldn't you give to have some one tell you what this girl was told?

Pimples, blotches, redness, roughness, eruptions, or any skin blemishes prevent attractiveness, and repel friends as well as strangers, but

Resinol Ointment aided by Resinol Soap tends to keep the skin healthy and increase its charms.

For sale by all druggists.

Resinol Shaving Stick is for men who want cool, soothing shaves.

## Queen of Democracy Court Will Attend Land Show Ball

**THIRTEENTH COMMANDMENT**  
By Rupert Hughes.

(Continued from yesterday.)  
In another room Lella was shrieking and fighting, whispering and moaning, torn gazelle under the claws and fangs of tigerish pain. Abruptly there came a lethargic silence from her. They had succeeded in drugging her at last.

And now the fatigue of the experience, the exhaustion of all emotion left the two bodies like closed shops on Sunday. Daphne and Lella were, as we say, astrot. That was good. That made up chieftain of jealousy and suspicion.

At last the telephone rang. A man's voice spoke and explained that it spoke from a hospital.

"Is Mr. Kip? Where? Is this Mr. Kip? Mr. Bayard Kip? Your wife is here, your sister, and your friend Wetherell—automobile accident—out here on Long Island—pretty bad smash. Your wife is very well—better come out as soon as you can."

The world reeled. Bayard seized his hat, played a tattoo on the elevator, and suddenly remembered that he had given his last cash to the waiter at the restaurant to ask the night man for a telephone call from him a cherished ten-dollar bill slipped into the street, yelled at a taxicab with fury, got in, ordered the driver to "go hell-hell." He kept putting his head out to howl at him.

The old cab creaked and hustled and with disasters; their perceptions of misery were dulled. What courageous effort was needed to tear loose from knowing too much about misery. Only a picturesque catastrophe could attract the attention. They skinned the brutal headlines and turned to the comic page, where blessed masters of diversion played the clown to keep the habit of cheerfulness and the habit of courage in a world of travail.

So Daphne in a gloom over her own financial riddle had made less than her sympathetic response to Bayard'simplified appeal. She had gone her ways, dreaming no more of the sorrow she left behind than of the sorrow she was tending toward.

The collapse of Bayard's hopes affected other people no more than other people's collapses had troubled him when he was prospering. Fortunes had been made and lost in the munition plants so rapidly that people grew in different stocks themselves were differently referred to as Bayard's stocks, and when Bayard left his office and bought an evening paper the caption of his venture was the ribald heading, "Wall Street Spanks Another War Baby." That was all it meant to the reporters. With equal callousness they would refer next day to Wetherell's disaster as "Another Joy Ride Meets Fatal Finish."

Bayard was so forlorn, so profoundly crushed by his bad luck that he could not bear to show his face at any of his clubs that night. He had boasted there too often of having bought heavily of the stock. He had persuaded too many of his friends to invest in it.

So he went where busy men go when other places are closed to them. He went home. He forgot having telephoned that he would not be there for dinner. When he reached his apartment

### Colorful Affair Has Been Arranged for Tonight

All attendance records were broken yesterday at the Land Show, when 31,805 people passed through the gates during the day and evening. Shipbuilders' day and Japanese day were celebrated with a mammoth program.

Tonight's another big night—one of the scintillating, colorful nights of the Land Show.

For tonight Aldora Pimentel, Queen of the Court of Democracy, is to be presented in the court, and a fashion show and great ball in the auditorium arena will be among the joyous events of the really big evening.

Tonight's war carnival, Indian show in the theater, and musical programs and other attractions are being offered.

Tomorrow sees the opening of the pigeon, poultry, and rabbit shows.

Panthers from all over the state are coming for this exhibit, and any interested may see some remarkable displays.

Those interested before

will be when they see one make a thousand dollars in no time at all—just by waiting for pigeons to lay eggs and hatch 'em.

Steindorf's band will play and the Royal Hawaiian Quartet will be heard in songs.

But tonight!

It will be glittering, kaleidoscopic night—a wild, wild, wild gaiety with the queen and her retinue. In their brilliant costumes; with wonderful fashion creations that every woman wants to see; with music, laughter, a regular carnival, where troubles are forgotten in the sheer joy of living.

The entire week is filled with big special events, and a wide variety of attractions are being arranged.

Yesterday's big program was run off without a hitch, except that Ambassador James W. Gerard, whose voice gave out in the middle of his speech at Lakeside Park, was not permitted to attempt another speech in the evening.

### Red Cross Notes

Glasses in first aid and home care of the sick now. Tuesday and Thursday nights at 5:15. Monday and Friday afternoons at 3 o'clock, at Oakland high school, room 46, basement. Applications are being received. Oakland will later be called upon for services which students can render.

The fifth installment of the statement of the American Red Cross War Council as announced today deals with the activities of the Fourteenth division, covering all parts of the world outside the war zone excepting America. Organized in November, 1917, this insular organization now numbers 11 chapters, three of which, in Syria, Turkey and Persia, were inactive. The eight chapters have grown to a membership of 100,000 adults and 125,000 juniors. Their finished contributions represent a value annually of \$1,500,000. They gave \$257,425.53 to the first war drive. In the second war drive they increased the quota of \$300,000 to \$1,100,000.

A resume of the contributions follows:

Argentina, from a bazaar, \$105,000; from a bazaar, \$156,000; war drive, \$50,000.

Valparaiso and coast towns of Chile, \$115,000; war drive, \$52,000.

Peru, \$19,300. Monthly contribution, \$10,000.

Cuba, the government, \$65,000; second war drive, \$15,600.

Porto Rico, \$21,501.22.

Hawaii, \$200,000; second drive, \$87,000. Membership and production, 100 per cent.

China, first drive, \$1803; second drive, \$100,000.

Guam, first drive, \$2612.67; second drive, \$580.

Japan, first drive, \$2232.38; second, \$60,000.

Valparaiso and coast towns of Chile, \$115,000; war drive, \$52,000.

Peru, \$19,300. Monthly contribution, \$10,000.

Cuba, the government, \$65,000; second war drive, \$15,600.

explosives of cotton.

Lella, for weeks, almost invisible in handbags; her whole body criss-crossed and swaddled. She was a Egyptian princess mummified. For a moment her soul came out of the dream, his gasp of pity. It ran about inside his cocoon trying to find a nerve to pull or a muscle to signal to him outside. The mere lifting of her hand brought from her a moan of such woe as cancelled all Bayard's grievances against her.

It is small wonder that man should believe in a divine hell, seeing how the people he himself claims are absolved by a proof of torture as atonement. Even Wetherell had gained forgiveness by merely dying.

If Lella had come through the escapades beautiful and unscathed Bayard could have hated her. But when she could love the poor writhing thing she could not.

Once Bayard's requirements and jealousies were swept from his mind his old love came back throbbing and leaping. His very soul blest and he dropped to his knees, his arm thrown across that bundle of wreckage which had been his choice among the world's beauties.

This was Bayard's third marriage to Lella; for every couple has at least four ceremonies to go through with before they are completely married. The first is the trial of amour, the trial by fire, the ordeal of fire. The second is the initiation into the more serious problem, the financial matrimony.

The third is the experience of anguish, when either watches other through great pain or illness or disgrace—the wormwood moon. To the fourth marriage rite the Kips had not yet been summoned, for since their marriage death had not robbed either of them of any one near or dear.

(To be continued.)

# 3-Reasons Why-3

Women, You Will Never Forget

TOMORROW

1st I start the finish of the  
**GREATER SAN FRANCISCO  
CLOAK AND SUIT COMPANY  
OF SAN FRANCISCO**

THAT FAILED!

2nd The Board of Trade  
accepted for the creditors  
40c on the Dollar

3rd I AM GOING TO SELL  
The largest number of Coats, Suits and Dresses ever Sold  
in one day in any Cloak and Suit House in San Francisco

SO IT'S UP TO ME TO MAKE PRICES TALK!

### Women's & Misses' Dresses

\$35.00 Women's and Misses' Serge, Satin, Georgette, Crepe, Messaline and Taffeta Dresses—the very latest, \$15.55 go at.....

\$40.00 Women's and Misses' Dresses in Serge, Velvet and Satin combinations, Taffeta, Messaline and Georgette Crepe, the very latest, \$19.55 go at.....

\$47.50 Women's and Misses' Dresses with panels, trimmed with Fringe and Beaded Effects, in Serge, Satin, Georgette, Crepe and Jersey, the very latest, \$24.55 go at.....

### ALL SIZES

\$50.00 Women's, Misses' Dresses in Duchess Satin, Charmeuse, French Serge, embroidered and beaded with flying panels

# October Weather to Be Rough Father Ricard Predicts Storms

For number and magnitude the disturbances of October will probably rival those of September just elapsed. This, however, does not mean that there will be much rainfall, or thunderstorms of the same fulfulness, or halostones of the same portentous size. For, as is well known to weather observers, atmospheric disturbances travel in a train, but much faster, very seldom starting from the same point nor following the same route. Therefore, a storm of no outward pretension in this or that locality and round about might sometimes prove colossal, less than a hundred miles away.

1-The areas of high barometer will

succeed each other in the following order: October 2, 4, 6, 16, 18, 22, 26, 28, 30, November 2, 5, 8, 11.

Notice once more how these dates

fall well, without any outward semblance of mathematical law. There is only one series which is a near approximation, and within it there is still another; but both these are infinitely removed from the view of the contemptuous. We have, however, upon a train, but much faster, very seldom starting from the same point nor following the same route. Therefore, a storm of no outward pretension in this or that locality and round about might sometimes prove colossal, less than a hundred miles away.

THE HEAVIER DISTURBANCES.

Among and within the monthly disturbances we signalize the following:

1-High, October 1; low, October 4.

2-High, October 6; low, October 9.

3-High, October 8; low, October 11.

4-High, October 12; low, October 15.

5-High, October 13; low, October 16.

6-High, October 14; low, October 17.

7-High, October 28; low, October 31.

8-High, November 2; low, November 5.

9-High, November 5; low, November 8.

10-High, November 9; low, November 12.

11-The areas of low barometer will

arrive on October 4, 6, 8, 10, 15, 19, 22, 25, 29, 31, November 3, 5, 8, 11.

## We Must Do All We Can to Help Win the War

### Important Notice

A year ago, at the instigation of the National Council of Defense, the retail stores were obliged to change their methods with reference to deliveries, return of merchandise and in other ways.

Realizing the necessity that forced the change, customers co-operated cheerfully in carrying out the government's policies.

As the war makes further demands on the resources of the country in order to make ultimate victory certain, it is confidently expected that a continuation of this co-operation will be granted.

The State Council of Defense has adopted the following resolution:

"Resolved, that we discourage the giving of useless or extravagant Christmas presents, and urge early Christmas shopping; and that all gifts by mail or express be started to destination not later than November 30th."

The above resolution was made necessary owing to the increased requirements of material and labor for war purposes which make it essential that Christmas gifts (except for children) be confined to useful articles.

Under the operation of the extended draft for the army, it will be impossible for the stores to give their customary service during the month of December. You are therefore urged to commence your holiday shopping at once, aiming to finish in November.

Shop in the mornings, when possible, and distribute the drain on service resources.

Carry small packages—return as little merchandise as possible—and remember the FOUR-DAY LIMIT for its return.

Avoid C. O. D. purchases if possible.

Bring all returnable goods with you and in good condition.

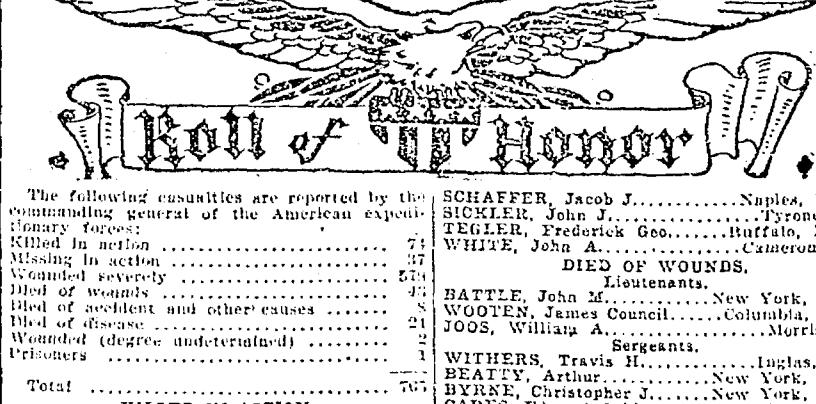

All of the above things are essential items—just as the saving of a slice of bread, or a cube of sugar—for the successful conduct of the war.

All transportation facilities being largely used for the movement of war materials, it may be necessary for the government to curtail or stop the mailing and expressing of private packages at an early date.

THIS IS AN ADDED REASON FOR THE EARLY PURCHASING AND FORWARDING OF CHRISTMAS GIFTS

AUTO DRIVERS ARE ARRESTED BY TRAFFIC MEN

SAN JOSE, Sept. 30.—More than 200 automobile drivers from this country, Alameda county and San Francisco, were held up last night on the San Francisco road while their dimmers were being inspected and the tilt of the headlights measured. Of this number fifty were arrested and ordered to appear before Judge Urban A. Sontheimer next Friday. The percentage of arrests shows that the automobile drivers of this part of the state are gradually being educated as to the requirements of the law, largely through the activities of the law enforcement squad. The law is being very strictly enforced in this country and the patrolmen are working three and four to a squad.

Freight Trains in Crash; Cars Derailed

Two freight trains on the Southern Pacific collided near Centerville at 1:36 o'clock this morning. No one was injured. As one of the freight trains was pulling into a siding it was struck by the other which was rounding a curve. Five cars were derailed. There was no delay to traffic. The damage to freight and rolling stock will approximate \$50,000.

Soldier Trades Life for Ten of Foes

WITH THE AMERICANS NORTHWEST OF VERDUN, Sept. 30.—American staff officers visiting a battlefield on this sector Saturday found a dead American soldier surrounded by ten dead Germans, whom he apparently had killed before being slain himself.

MRS. KLEIN RECOMMENDS CHAMBERLAIN'S LINIMENT

"Keep a bottle of Chamberlain's Liniment in the house at all times, and use it to treat rheumatic pains quicker than anything I ever used. I have also recommended it to my neighbors and friends who have been using it with great success. Mrs. M. M. Klein, Culloden, Mo. For sale by G. B. Drug Stores—Advertiser."

# Free Dancing Tonight

Flooded by requests the Land Show management will give another big free dance in the auditorium arena tonight—26,000 feet of floor for dancing. Real "jazz" music. BAND OF FORTY—all soloists. LEADER STEINDORFF—the peerless. Oh, Boy! Bring her here tonight.

IT'S ABSOLUTELY FREE

# Free Moving Picture Show

Official War Pictures. "Pershing Over There." "Bridge of Ships." The great shipbuilding spectacle. Other features in the theater.

IT'S ABSOLUTELY FREE

# "From the Arctic to the Tropics"

The talk of the town. See the wonderful natural history exhibit installed by John Rowley and H. K. Snow for the Oakland Museum. See every known animal and fowl in their native habitat. In the auditorium arena.

IT'S ABSOLUTELY FREE

and something doing every minute in the exhibit tents. Automobile and kindred trades. Manufactures and agricultural. Uncle Sam's "Win the War" exhibit, and the "ZONE" for fun—

25c admission to the grounds covers the entire cost

# Oakland's Land Show

the show that has broken all Pacific Coast records for attendance at similar projects—31,805 persons passed through the gates yesterday, and every one satisfied because the Land Show is a credit to any community.

See It Tonight!

Tuesday, October 1st—Soloelle Day

## POURING OF THE CONCRETE.

The dedication Saturday of the new Federal concrete shipyard on Government Island in Oakland estuary was a notable event. Recent industrial advancement in Oakland and other Eastbay cities has been so rapid that the establishment of a new plant fails to attract the attention that would have characterized a similar event a few years ago. A new ship plant in the pastoral days would have called for widespread comment and occasioned general public rejoicing.

The Government Island plant, however, in some respects transcends in importance any industrial or corresponding magnitude. It is no exaggeration to declare that the event has a world-wide significance and marks an epoch in shipbuilding. The erection of this yard by the United States Government is in effect an official declaration of the success of the concrete ship, and, concomitantly, revolutionizes an industry that has flourished for ages throughout the world.

When the Faith was launched in San Francisco bay many experienced shipbuilders, slow to adopt innovations, expressed serious doubts of the success of the venture. Seafaring men were even more outspoken in their expressions. History was repeating itself, for new ideas have always encountered the opposition of the scoffer and ultra-conservative. The Government, following a most careful investigation, is evidently satisfied as to the feasibility and utility of the concrete ship.

Four shipways are being constructed from which vessels will be launched sideways. Under the new method of construction the expression "the laying of the keel," is consigned to the limbo of the things that have gone before. The corresponding ceremony now will be "the pouring of the concrete" which may work a hardship upon many a poetical genius, but we readily adapt ourselves to new conditions. With the completion of the new concrete ships at Government Island yard, Oakland will acquire new fame regardless of whether the stone ships take the water frontways or sideways. It matters little so long as each ship shall "feel the thrill of life along her keel" in time to play a part, acknowledged to be so important, in the mighty struggle for world freedom. All success to the concrete ship.

## CENTENARY OF THE BICYCLE.

The very first bicycle made its appearance one hundred years ago. If there was not so much doing just at present of an overwhelming nature the centenary might be marked by some kind of an observance; though it would not be in celebration of the bicycle in its present form. The original vehicle was a two-wheeled contrivance which the rider bestrode and propelled by touching his toes to the ground. Maintaining his equilibrium was not involved.

The American velocipede made its appearance about 1869, and was the first practical vehicle to be propelled by the rider through the operation of pedals. The frame was of wood, and the pedals were attached to the front wheel. It was little more than curiosity, much in vogue at country fairs, and the person who was able to ride it around the race track caused much wonder as to how he managed to keep his seat.

That form of the bicycle with the big front wheel and the very small rear one, called the "ordinary," came along in the early seventies. It reached its highest development and greatest vogue about 1886, when the "safety" supplanted it. Thus it can be reckoned that the present day bicycle, which has been described as the most convenient and most economical means of locomotion ever invented, is a little more than thirty years old.

The "safety" was equipped from the outset with rubber tires, but at first they were very narrow. The small tread cut in going that was not solid. As that was before the era of good roads, bicycling, especially in the country, was a more or less arduous form of locomotion.

The pneumatic tire made its appearance in 1894, those who wheeled at the time and were used to skeleton tires will recall what a curiosity the said form was. The pneumatic tire was pre-

ceded by what was called the cushion tire, which, however, never gave satisfaction.

It is interesting to recall that within a quarter of a century the bicycle became a furore and then subsided into a vehicle of strict utility. The most modern variant is the motorcycle, which has been almost exclusively a vehicle of pleasure, but is making its way into the utility class.

The bicycle is so simple, and its management is so readily mastered, that the wonder is that the inventive world went so long without producing it in a practical form.

## BULGARIA MUST BE WATCHED.

Bulgaria, always the mercenary tool of Berlin since mercenary King Ferdinand pledged her to the war ambitions of the German kaiser, has made overtures to the entente commanders in the Balkans for a cessation of hostilities. The answer of the Allies should be "Unconditional surrender" of the military forces, material and facilities. Nothing less should be considered.

The Bulgarian government, when it determined to enter the conflict upon the German promises of a reward of Rumanian, Greek and Serbian territory, confidently relied upon the German assurance that the terrors and hardships of warfare would not be visited upon Bulgarian territory. This delusion has passed. Serbian, French and English armies have routed Bulgarian forces and invaded Bulgarian territory. They have taken

great numbers of prisoners and large quantities of war material. National disaster faces the chauvinistic military-political leaders of Sofia. Their situation is critical and they imagine themselves freer to retreat and retreat and save more from the wreck of ill-fated predatory ambitions than is possible with Germany and Austria-Hungary.

But the Allies must look for a crooked German scheme behind the apparent Bulgarian fear of punishment. Bulgaria is the weak link in the alliance of the central powers. But she is nevertheless a member of the alliance from choice. Soft dealing with Bulgaria would be soft dealing with the German kaiser.

Any settlement with Bulgaria worthy of consideration must look to the complete elimination of that country as an aid of the central powers in a military, economic and political sense. Bulgarian territory, with its railroads and highways, must be available for establishing contact between the other Allies and Rumania and as an area for attack against Turkey and Austria-Hungary. Bulgaria's defection from Germany, Austria and Turkey must be complete, unqualified and unreserved. Such is the way to decisive victory over the enemies of the United States and to a general peace.

Reports furnished the war board by the American Electric Railway Association covering the income accounts of 293 companies for the first half of the current year disclose a decrease in total net revenues of 74.4 percent as compared with the same period of 1917. But that is not all of it. This decrease occurred before the new scale for employees, approved by the national war labor board, went into effect. The cause of this falling off does not appear to have been given. Time was not so long ago that electric railway securities, mostly street railways, were considered particularly gilt-edged. The suburban and interurban extensions are evidence of this. It appears that this slump is general, and not particular to any section of the country or any local condition. There must be a basic cause not readily discernible.

The senatorial campaign in Michigan was of such a nature that account of it was taken by the national Senate. Senator Pomerene introduced a resolution to investigate before election the expenditures in this and other States, but this has been amended to confine the investigation to the efforts of Federal officials and employees in behalf of certain candidates and against certain other ones, in violation of the statutes. The law is very definite on this head, and the times would seem to warrant circumspection; but the Federal brigades appear to be more active now than in that period when they were not restrained at all by statute from lending a hand at the polls.

The senatorial campaign in Michigan was of such a nature that account of it was taken by the national Senate. Senator Pomerene introduced a resolution to investigate before election the expenditures in this and other States, but this has been amended to confine the investigation to the efforts of Federal officials and employees in behalf of certain candidates and against certain other ones, in violation of the statutes. The law is very definite on this head, and the times would seem to warrant circumspection; but the Federal brigades appear to be more active now than in that period when they were not restrained at all by statute from lending a hand at the polls.

We are being discussed at a distance and are imperfectly aware of it. The Springfield *Republican* takes account of the fact that the State Board of Education has ordered German songs cut out of the text books here, and says: "Criticism of this measure as needless, since the songs in question are perfectly harmless, is met by the astonishing statement that the board was in possession of information that the federal authorities had warned one of the leading tourist hotels that the playing of German music at organ recitals would not be permitted." Who knows anything about this? First time we have seen any such news.

We should not withhold credit from the Serbs. They fared even worse than the Belgians. The war broke in their land. Their whole country was laid waste. But they retired to the mountain fastnesses and persisted, and now we read of their steady advance against the Bulgarians and Germans in Macedonia. The Germans principally are officers, though there may also be some Austrians. Considering how the allied Bulgarian-German forces were sweeping the field in comparative recent times, it is inferred that either their force is greatly weakened in numbers, possibly to reinforce the western front, or their morale is gone.

The pneumatic tire made its appearance in 1894, those who wheeled at the time and were used to skeleton tires will recall what a curiosity the said form was. The pneumatic tire was pre-

ceded by what was called the cushion tire, which, however, never gave satisfaction.

It is interesting to recall that within a quarter of a century the bicycle became a furore and then subsided into a vehicle of strict utility. The most modern variant is the motorcycle, which has been almost exclusively a vehicle of pleasure, but is making its way into the utility class.

The bicycle is so simple, and its management is so readily mastered, that the wonder is that the inventive world went so long without producing it in a practical form.

## NOTES and COMMENT

A Federal sleuth is at Wilkes waiting till a rice grower kills a duck. Then the law will be had on the hapless agriculturist, and he will learn that rice may be well enough in paddings, but that ducks are national wards, and by the laws of hospitality must eat.

There may be an undue scare of the Spanish influenza. The climate of California may mitigate its malignancy. Anyhow, it will find more fertile soil in rear than in sturdy determination to combat it.

The new Senator from South Carolina, Benet, is in bad the very first thing. His vote defeated the national suffrage bill, and his maiden speech was headed in the same direction. And worst of all, he kept his attitude secret. Some experience awaits Senator Benet.

Von Hertling has resigned. These are the times when the kaiser's advisers may be expected to become morbidly introspective, and say, "What's der use?"

According to the despatches, the Huns had a bad day of it last Friday. Things seemed to go wrong from the getting-up time. But they should cheer up. There is considerable yet to come.

California's primary law has become a text for newspapers throughout the country in discussing the subject in general. Many States are affected similarly to this. There seems to have been an attempt all along the line to radically change the method of exercising the elective franchise. There is now a well-defined settlement in favor of getting back to first principles.

The Woodland Democrat names one article the price of which has not doubted: "The only necessary article that does not cost twice as much as it did before the war is a postage stamp. The cost of that has increased only fifty per cent."

The Union is flabbergasted: "What! A merger of San Diego laundries without raising the price for collars and shirts? Watson, what's wrong here?"

Found in the Stockton Record, which is reliable authority: "There's a new kind of 'dinner' on the market and it is not in the least related to the lights on an automobile. This is a device of the fair sex intended to make opaque the diaphanous skirts that are sometimes far too frank in their revelations. And some put on the 'dinner' and some don't, just as in the case of the other safety device."

Riverside Press discusses Thrift Stamps in Hunland: "The Germans have Thrift Stamps and War Savings Certificates much like ours, except that their certificates are adorned with a picture of two Huns holding aloft the kaiser's crown before a glowing sun. Think of saying money for that!"

The application of an Icelander to become a citizen is reported. He is welcomed, and it is hoped the necessary fire under the melting pot will be congenial. He is the second native of that country, by the way, who has made such application in this section of the United States.

San Mateo City Council appears to have an argument in refusing to pay \$40 for water meter service for the month of August when water was shut off. It ought to be possible to establish that there was no service under the circumstances.

# NAIL FLAG IN BERLIN COURT YARD--GERARD

## TEN MILLION MORE TO GO IN OAKLAND

These figures show the quotas and the subscriptions to date in Alameda county:

District	Amt. Subscribed	To Date
Oakland	\$3,229,350	\$3,229,350
Berkeley	2,551,700	622,150
Alameda	900,150	451,350
Emeryville	85,250	32,800
Hayward	30,700	14,500
Livermore	25,700	11,500
Pleasanton	169,850	5,300
San Leandro	390,200	55,500
Washington twm.	18,050	44,200
County total	\$18,191,500	\$4,465,000

Oakland has approximately \$10,000,000 to raise in subscriptions for Liberty bonds of the fourth issue before the city's quota of more than \$13,000,000 is attained.

This statement is shown by the table of totals covering the city and the various county districts. The results so far attained are highly encouraging, but the committee chiefs say that in order to achieve a brilliant victory in the drive the city must not slacken its pace and point out the necessity for enthusiastic determined effort on the part of every citizen of the community.

Organizations, labor, young foreign auxiliaries, social and fraternal bodies, the committee believes, will play a big part during the present week in swelling Oakland's present total. Already it is reported that the employees of the San Francisco-Oakland Terminal railway contributed nearly \$10,000 toward their quota.

Among the foreign-born leaders of the city the Chinese are already credited with having subscribed in generous proportions. According to H. C. Schroeder, chairman of the foreign language department of the committee, Chinese merchants yesterday signed up for a total of \$100,000 worth of bonds. An interesting fact in this connection is the fact that every Chinese butcher shop subscribed for \$1000 worth and Lew Hing, a prominent Chinese cannon subscriber, for \$5000 worth of bonds.

SHOWS INCREASE.

Schroeder calls attention to the fact that in the first Liberty loan the local Chinese colony took up \$100,000 worth of bonds, in the second \$50,000 worth, and in the third \$25,000 worth. A sum of \$50,000 has been allotted the city for the fourth loan, and the local Danish auxiliary held a voluntary meeting in Danish hall Saturday night, on which occasion, it is

"We Hold Germany by the Throat"  
Former Ambassador Is Cheered  
"Must Rub Kaiser's Face in Mud"

"We cannot turn back now. Today we hold Germany by the throat" declared James W. Gerard, former ambassador to Germany, speaking to a large audience at the Legion of Honor Park, eager to listen to facts about the Fourth Liberty Loan. "Will you give up?" demanded he, and 10,000 voices answered back "Never!" Oakland stands pledged to take its full quota over the top.

If Germany wins there will be no form of wealth or place left to hide from her. When it will be safe to return to Germany, No one will have the energy by the threat, we are going to rub the kaiser's face in the mud of defeat. Look what we have to fight for. In all the world there is no place now so beautiful as California. We have ideals. We are led today by a man not only practical in war, but who is leading in that war-like spirit of a crusader and leaving on the world the imprint of that idealism we have been given.

Woodrow Wilson. We cannot stand by. We are going on until the German people know at last that they are beaten. Soon Germany will understand that we are fighting as much to free Germany as the world stands behind the President. Stand behind the men abroad.

"From every hill and corner of America goes up the cry to have 'They shall not win!' Nothing shall stop our men until we place the Stars and Stripes under the kaiser's nose in the courtyard in Berlin."

After reciting the horrors of German dominion, the former U. S. representative at the court of Berlin said: "He is a world figure who has upheld the principles of American institutions in the land of the enemy surrounded by treachery and in a reign that the Hun have practiced since war began. He has worthily represented American institutions to Germany and to the world."

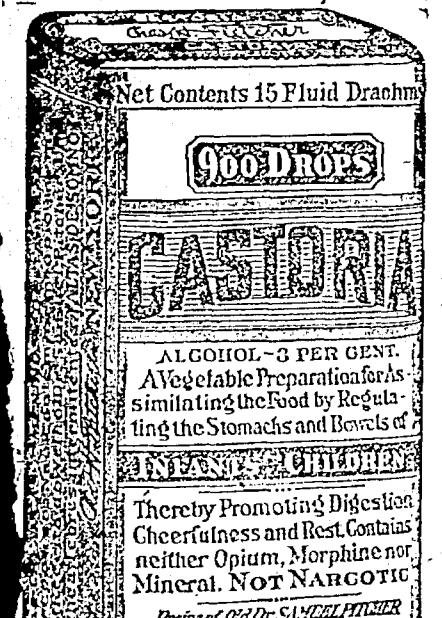

Gerard was greeted with cheers from the thousands of throats. Occupying the speakers platform were James W. Gerard, Mayor John Dunn, Judge Jesse Dunn, Postmaster John C. Morrison and Harry East Miller, chairman of the local chapter, American Red Cross.

"The only way in which democracy shall not perish from the earth" exhorted Harry Weinflash, the small boy orator, who concluded the Liberty Bond rally program, "is to buy bonds. The way to remove the barbarous from the earth is to buy bonds."

The total quota of the city of the ten-year-old four-million is "Buy Bonds!" The result was witnessed today in the big sale of the government security.

## Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

### Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. J. W. Dinsdale, of Chicago, Ill., says: "I use your Castoria and advise its use in all families where there are children."

Dr. Alexander E. Mintie, of Cleveland, Ohio, says: "I have frequently prescribed your Castoria and have found it a reliable and pleasant remedy for children."

Dr. Agnes V. Swetland, of Omaha, Nebr., says: "Your Castoria is the best remedy in the world for children and the only one I use and recommend."

Dr. J. A. McClellan, of Buffalo, N. Y., says: "I have frequently prescribed your Castoria for children and always got good results. In fact I use Castoria for my own children."

Dr. J. W. Allen, of St. Louis, Mo., says: "I heartily endorse your Castoria. I have frequently prescribed it in my medical practice, and have always found it to do all that is claimed for it."

Dr. C. H. Glidden, of St. Paul, Minn., says: "My experience as a practitioner with your Castoria has been highly satisfactory, and I consider it an excellent remedy for the young."

Dr. H. D. Benner, of Philadelphia, Pa., says: "I have used your Castoria as a purgative in the cases of children for years past with the most happy effect, and fully endorse it as a safe remedy."

Dr. J. A. Boarman, of Kansas City, Mo., says: "Your Castoria is a splendid remedy for children, known the world over. I use it in my practice and have no hesitancy in recommending it for the complaints of infants and children."

Dr. J. J. Mackey, of Brooklyn, N. Y., says: "I consider your Castoria an excellent preparation for children, being composed of reliable medicines and pleasant to the taste. A good remedy for all disturbances of the digestive organs."

GENUINE CASTORIA ALWAYS

## NEW YORKERS REACH HALF BOND QUOTA

NEW YORK, Sept. 30.—Nearly

half of New York's \$1,800,000,000 quota of the Fourth Liberty Loan was reported today when the "Rainbow division" of the allied trades, including every craft in the city, announced a pledge of \$878,625,000.

PORLTAND, Ore., Sept. 30.—

Publication of names of well-to-do persons considered by the Liberty loan committee to be slackers, in that they had refused to buy bonds, or bought inadequately, was begun here today. Names of three men alleged to be in this class were given out and the committee said others would follow.

Of Oregon's quota of \$33,800,000 today's tabulation showed \$29,033,000 to have been subscribed.

Of Oregon's quota of \$33,800,000 today's tabulation showed \$29,033,000 to have been subscribed.

PORTLAND, Ore., Sept. 30.—

# DRAFTISTS NOT CHANGED BY LOTTERY

## 6-CENT FARE TICKET TO SAVE PENNY HUNTS

The penny is outdone. No longer will travel be held up while feminine passengers hunt the elusive copper or masculine travelers pursue the despised and copy cat. Beginning tomorrow, the San Francisco-Oakland Terminal Railways will put on sale in any quantity at the general offices and news stands agendas 6-cent street car tickets. Conductors will sell blocks of 5 tickets for 29 cents, 10 tickets for 50 cents, etc., up to 50 tickets for \$2.

These tickets will be accepted in any street car or train on the Key division cars where the regular fare is 6 cents. Tickets will not be sold by conductors except in strips of 5 or multiples thereof. Passengers are requested not to deposit tickets in the box, but to the conductor.

## WAR WORKERS' HOMES ARE IN PRIORITY

With the news that new homes, where needed to house war workers, will be given priorities under the War Industries Board rulings, Oakland today has assurances that new building can proceed where the construction still held to account the influx of ship workers.

Oakland's first quota of 1,000 is in

the hands of the War Industries Board.

Today, saw the boards headed by draft registrants in

the main, held a meeting to discuss

the quota, and the War Industries

Board, in turn, has issued a

directive that the quota will

be filled by the end of the month.
